## ***About Chilkat Js***

The Chilkat Js JavaScript engine was originally derived from the open-source QuickJS project. QuickJS provided an excellent lightweight JavaScript interpreter that served as a strong starting point.

However, the Chilkat Js engine has since undergone extensive modifications and architectural changes to meet Chilkat's internal development standards and architectural requirements.

It is closed-source and independently maintained by Chilkat, and it does not track or merge future changes from the upstream QuickJS repository.
